

"This is a multiline file.\nThis file tests upper, lower\nand punctuation characters!\n?<><<;][\nand here is a number test 1234567890987654321\nand also abcdefghijklmnopqrstuvwxyz\nTHIS SENTENCE WILL DISPLAY PROPERLY"

The above paragraph is the data that I have written to the Secret.dat file

```
C:\Users\Charlie\Documents\Uni Modules\Java - CM1210\Coursework 1\2>java Encrypt Secret.dat
Tghr hr z ltkshkhmd ehkd.
Tghr ehkd sdrsr toodq, knvdq
zmc otmbstzshnm bgzqzbsdqr!
?<><<;][[
zmc gdqd hr z mtladq sdrs 1234567890987654321
zmc zkrn abcdefghijklmnopqrstuvwxyz
THIS SENTENCE WILL DISPLAY PROPERLY
```

And the above screenshot is the output of the program
